

PROFESSIONAL SUMMARY

Full-stack developer with 2+ years of professional experience building web applications with React.js, Node.js, Express.js, and MongoDB, along with 1 year of hands-on UEFN and Verse development. Experienced in building features, integrating APIs, creating reusable UI components, and using AI-assisted development tools such as Antigravity and Claude Code to improve development speed, debugging, and code quality.

TECHNICAL SKILLS

Languages: JavaScript, Verse
Frontend: React.js, Next.js, Tailwind CSS
Backend: Node.js, Express.js
Database: MongoDB (NoSQL)
State/API: Redux, React Query, REST APIs, Webhooks, JWT
AI-Assisted Development: Antigravity, Claude Code
Tools: Git, GitHub, UEFN
Skills: Problem Solving, Self-learning, Technical creativity, Adaptability.

EDUCATION

Bachelor of Computer Applications (B.C.A)

Maharaja Krishnakumarsinhji Bhavnagar University

Swami Sahajanand College, (2020-2023)

8.6 CGPA

PROFESSIONAL EXPERIENCE

- Appworld Infotech | UEFN Developer / Verse Programmer**

Surat - Gujarat

Sep 2025 – Present

 - Develop Fortnite experience using Unreal Editor for Fortnite (UEFN) and Verse.
 - Worked on Prison Break and Hangout HUB, implementing gameplay logic, interactive features and game mechanics.
 - Updated and configured Widget Blueprints and integrated them with Verse code for dynamic in-game UI.
 - Debugged, tested, and optimized gameplay features within the UEFN environment.
 - Used AI-assisted development tools such as Antigravity and Claude Code for code assistance, debugging, refactoring, and faster development workflows.
- Bitfront Infotech | React.js Developer**

Surat - Gujarat

May 2025 – Aug 2025

 - Built scalable frontend solutions for Zervio Eco, Zervio Orbit, and Zenter Prize.
 - Implemented responsive UI from Figma designs using React and Tailwind CSS and created reusable common components.
 - Used React Query for server-state management and Redux for API data flow and state management.
- Tatvam Cloud Solution | MERN stack Developer**

Surat - Gujarat

Dec 2023 – Apr 2025

 - Developed features for Wisernotify Social Proof and Wisernotify Product Review using the MERN stack.
 - Integrated REST APIs, webhooks, Google My Business (GMB), and Google Places for synchronization and review management.
 - Implemented JWT authentication, researched complex API integrations, and improved reliability through testing and optimization.
